OUR STORY

Quality. Consistency. Sustainability.

These are among the many core values you can count on from Gumz Farms. Despite being one of the major producers in the Midwest, Gumz Farms remains a family farm. Brothers Richard and Roderick Gumz represent the **fourth generation** of Gumz family farmers who are committed to a work ethic and a land ethic – both of which we are very proud to share with you.

**Growing Sustainably—
In the family since 1892**

NEW STORAGE FACILITIES

WHY GUMZ FARMS

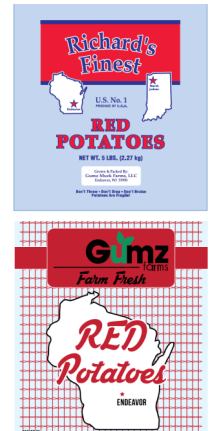

Because of our optimal geographic location in the Midwest, we can deliver quality onions and potatoes *on time, all year.*

We might be a family operation, but we have the capacity to meet your needs. Over the past decade, we have equipped our facilities with state of the art storages and packing equipment and rely on a great team of employees to get the job done.

FOOD SAFETY

We believe food safety is key to providing our customers with quality produce they can count on. In our fields, we adhere to the Harmonized Standard and are certified by the USDA. In our packing shed, we follow a Global Food Safety Initiative approved scheme, Primus GFS.
